

# PIT Perfect

## Pit and Lagoon Treatment

### Benefits

- Eliminates odor
- Dissolves solids
- Reduces ammonia
- Stabilizes nutrients for land application
- Makes pumping faster and easier

### Mixing Instructions

#### SHAKE WELL PRIOR TO MIXING.

This product is designed for the user to treat flow proportionately or add as a slug dose and mix to achieve consistently positive results.

- One gallon treats 50,000 gallons of liquid waste volume - **WITH NO ANIMALS PRESENT** - AGITATE WASTE VOLUME UPON APPLICATION FOR QUICKER RESULTS
- Recommend diluting PIT Perfect with water 1:50 and add to pits in multiple locations per room
- Circulate pits when possible with **NO ANIMALS** present
- Add PIT Perfect once per month based on volume to increase for that month

***PIT Perfect is a blend of targeted amino acids and natural emulsifiers that will make lagoon maintenance and pit cleanout less time-consuming. The active ingredients in PIT Perfect act as wetting agents, reducing surface tension, liquefying solids and improving the state of the organic contaminants in the pits and lagoons.***

### Compatibility

PIT Perfect has a buffered pH of less than 4.0. It is NOT recommended to apply this product with highly alkaline chemicals.

### Biodegradability

PIT Perfect is formulated with naturally derived, renewable raw materials and is readily biodegradable.

### Handling and Storage

PIT Perfect should be stored in sealed containers out of direct sunlight in a cool dry area. Shelf life is a minimum of 12 months when stored in unopened containers. Request a PIT Perfect SDS for more specific information. Made in the USA.

### First Aid

-Eye contact: Immediately flush eyes with plenty of water for at least 15 minutes. Seek medical attention if irritation persists.
